Release Notification and Corrective Action

OPERATOR

☒ Initial Report ☐ Final Report

Name of Company	Burlington Resources	Contact	Gregg Wurtz
Address	P.O. Box 4289 Farmington NM 87499	Telephone No.	(505) 320-2653
Facility Name	SAN JUAN 28-6 UNIT 105	Facility Type	Gas Well
Surface Owner	Fed	Mineral Owner	Fed
		Lease No.	NMSF-079051-B

LOCATION OF RELEASE

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
N	35	028N	006W	1050	South	1680	West	San Juan

NATURE OF RELEASE

Type of Release	2% KCL water	Volume of Release	30 BBLs.	Volume Recovered	0 BBLs.
Source of Release	Mist water storage tank used by Air Package con	Date and Hour of Occurrence	6/27/2006 9:00:00 PM	Date and Hour of Discovery	6/28/2006 9:00:00 AM
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Denny Foust		
By Whom?	Gregg Wurtz	Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*
None

Describe Cause of Problem and Remedial Action Taken.*

The air package operator was filling the mist tank and did not track the water level in the tank filling. The tank overfilled and 2% KCL water was released to the ground on location and off location. The water that flowed off location traveled approximately 100 yds following the natural contours of the ground. All water was absorbed into the soils. Soil samples will be collected along the flow path and analyzed for chlorides. Sample analysis will be submitted and a remediation plan will be discussed based on the results of the analysis.

Describe Area Affected and Cleanup Action Taken.*

Area on location around the mist tank and narrow flow path off location approximately 100 yds.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
