**NATURE OF RELEASE**

Type of Release <b>Produced Water</b>	Volume of Release <b>Approx 150 bbl</b>	Volume Recovered <b>Approximately 50 bbl</b>
Source of Release <b>Production tank</b>	Date and Hour of Occurrence <b>03/24/06, time unknown</b>	Date and Hour of Discovery <b>03/24/06 at 09:30 am</b>
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? <b>Left message for Denny Foust (cell phone) around 5:00 on 03/24/06 and followed up next business day (03/27/06) at 09:00</b>	
By Whom? <b>Lisa Winn</b>	Date and Hour <b>03/24/06 at 5:00 pm</b>	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse	

If a Watercourse was Impacted, Describe Fully \*  
N/A

Describe Cause of Problem and Remedial Action Taken \* ☐ A 4" plug was missing from an overflow located approximately 6" from top of a 300 bbl production tank. The automation shut-off device did not activate and an estimated 150 bbl of produced water flowed out the side of the tank. The XTO lease operator discovered the spill, shut in the well and called a vacuum truck to recover water standing within the berm. The spill was contained, the produced water is Fruitland Coal water and no further remedial action is recommended at this time.

Describe Area Affected and Cleanup Action Taken \*  
There did not appear to be lateral migration of the spill beyond the secondary containment. The spill was detected promptly and a vacuum truck was dispatched immediately to the site. Quick response resulted in recovery of water and no observed impact to the location. The automation control was immediately replaced and the plug was placed in the overflow.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
