Questar Exploration and Production Company returned the Smith #4 well to production on 7/11/09, as reported in the previously-submitted sundry dated 7/20/09 and "Accepted for Record" 7/24/09.

This well was returned to production on 7/11/09, but the production was incorrectly reported for the months of June 2009 through October 2009. The error has since been corrected, and the production has been re-reported for the referenced months. The well remains an active producer.
