Inside of firewall, on backside of tanks. oil stain on gravel.  
We will remove fence around battery. Take down firewall, remove  
stairway and Tanks. Remove gravel and dig up contaminated soil

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

and farm on location. (burn and fence farm) Test soil, when  
clean, replace soil and Gravel, set new tank, build firewall  
and fence. Will set waterpit or tank later. Work will start as  
soon as a crew comes free.
