## 13. Describe Proposed or Completed Operations

Burlington Resources requests permission to change the Intermediate Casing set depth from the approved APD of 3864' TVD to 3365' TVD which is 100' below the Lewis. The well was originally planned for a deeper setting depth because of low dog leg severity design, but the current drill pipe can have more severe builds and drops with no effect on torque or drag. ✓ The cmt volumes will be adjusted accordingly. Verbal approval was received from BLM (Troy Salyers) and OCD (Steve Hayden) on 5/3/10. ✓
