13 Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Elm Ridge Exploration Co. LLC, requests permission to convert this well to a pressure monitoring well, as reservoir pressure data are very limited in this area. We have recently drilled a number of new wells in this area, with more planned, and these data would be helpful in establishing current reservoir parameters. We also request permission to use, pending approval from the appropriate agencies, produced water from this well for dust control on lease roads in the area, since this well no longer produces hydrocarbons.

You are required to submit annual pressure data.

\* For the use of produced water you must submit a separate request for review and approval to the NMOCDD. The produced water request in this sundry is denied.

Must comply with NMOCDD Rules  
19.15.25.12, 19.15.25.13 and  
19.15.25.14
