13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Please consider the referenced well for an exception to the new seasonal drilling restrictions. We submitted the application for permit to drill this well on 12/22/2003 and received approval from the BLM on 1/13/2004. The approved application for permit to drill stipulated, "The location of the proposed action is located within a designated Big Game Winter range area. Big Game Winter wintering range area will have no construction drill or completion activities conducted between December 1 and March 31". We intend to drill, complete, and get pipeline ROW completed during the restricted time. The activities are planned to start on February 20, 2004 and be completed by March 1, 2004. The well will not be recavitated until Spring 2004.
