Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well is drilled and cased. Our sales line pressures are presently too high to produce the well. We are currently increasing the line size in the area to provide a lower operating pressure and provide a measure of safety for pipeline pressures. construction will be complete in the next few weeks. Once the gathering system is complete, we well begin well completion and bring the wells to production. We request that we be given until December 31, 2010 to place this well on production.
