If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

In the attached application dated 8/22/00, Dugan Production Corp. has proposed to convert the existing gas sales meter for Dugan's Big Field No. 1 to a central delivery sales meter for Dugan's Big Field No. 1 and No. 5 wells. This will require the surface commingling of gas from the Harper Hill Fruitland Sand/PC and Basin Dakota gas pools. In addition, since the sales meter for the Big Field No. 1 is located approximately 1500' south of the well and on adjacent Federal Lease No. NM-28820, we are also requesting approval for off-lease measurement of natural gas from both wells. Federal Lease No. NM-10561 is the only lease involved and comprises the spacing units for both wells. Pertinent data for the wells and CDP sales meter is:

Well/Meter	API No.	Location	Lease No.
Big Field No. 1	30-045-22763	SESE-10-30N-14W	NM-10561
Big Field No. 5	30-045-30182	NESE-10-30N-14W	NM-10561
CDP Sales Meter	none	NENE-15-30N-14W	NM-28820

14. I hereby certify that the foregoing is true and correct

Signed
