13. Describe Proposed or Completed Operations

ConocoPhillips requests permission to change the intermediate setting depth from 4036' TVD to 4440' TVD due to drilling issues resulting in a 6 1/2 degree inclination at 1750'. In order to return vertical without deviation angle issues the intermediate casing point was deepened. The casing weight from 4000' to 4440' will be increased to 23# and from 4000' up will remain 20#. The cement volumes will be adjusted accordingly. ✓ Verbal permission to proceed as planned was given by BLM (Troy Salyers) and OCD (Steve Hayden) on 7/19/10. ✓
