Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

It appears that the production tubing has a hole in it which is preventing the plunger from traveling. We plan to pull the tubing and pressure test it. This work will be completed and the well tested by 10/22/2010. If the well continues to log off after repairing the tubing, we will submit intent to plug this well.
