13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy Inc. requests written approval to place a 8x20 Connex storage unit on the above referenced well location. Sherrie Landon has previously completed this onsite and has given verbal approval. The Connex will be placed in the Northeast area of fenced location due North of the production tank berm. Storage will consist of compressor maintenance supplies such as, alternators, dump valve kits, filters and other routine service supplies. Absolutely no chemicals or liquids of any kind will be stored on site in the Connex. Connex will also be painted to match the equipment and APD specifications.

Please see attached site diagram with proposed placement area.
