Subject NAPI oil & gas line required standards

Hi Dusty,

I just spoke to Al Nakai, our GIS Coordinator, and he said that you needed NAPI to send you an e-mail regarding our requirements on all oil and gas line burial depths.

Please let this e-mail serve as official notice that NAPI requires all oil and gas lines to be buried 6ft deep within NAPI boundaries.

Also, will you please send me the GPS coordinates on the location(s) that you were talking to Al about?

Thank you for your cooperation in this matter. Should you have any questions, please call Greg Yazzie at 566-2623 or 793-4923.

Thank You,

## April R. Duncan

Subject NAPI Oil & Gas Required Standards

Good morning, Mr. Mecham.

In accordance with NAPI's standards for oil & gas standards, it is required for the abandoned well be marked with piping showing the legals or a dry hole marker buried at minimum depth of 6 feet. The marker plate will have to be marked with the legals also. Any other questions or concerns, please contact me through the listed mediums below.

Thank you.
