| By Whom? <b>Michael Lane</b>   | Date and Hour <b>12/1/05 9:00 AM</b>                        |   |
| Was a Watercourse Reached?<br><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No  | If YES, Volume Impacting the Watercourse                    |   |

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.

**Liner torn during rig move. Tear extends to water level. No water has left reserve or flare pit area at time of report.**

Describe Area Affected and Cleanup Action Taken. **Water truck to remove all free liquids from pit to below liner tear. Liner to be patched to allow completion of well next spring. Remediation of pit area to be completed once completion is finished and rig(s) move off.\***

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
