NATURE OF RELEASE

Type of Release - Produced Water	Volume of Release - 7 BBL	Volume Recovered - none
Source of Release: Packing leaking on pumping unit	Date and Hour of Occurrence 12/23/05	Date and Hour of Discovery 12/23/05 - 9:00 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Henry Villanueva - OCD - verbal 12/23/05 email 12/27/05 Denny Foust - OCD - email 12/27/05 Mark Kelly - BLM - via email 12/27/05	
By Whom? Juanita Farrell	Date and Hour - 12/27/05 - 9:00 a.m. via e-mail	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* A produced water spill of an estimated 7 BBL was discovered on Friday, 12/23/05, by NMOCD Inspector Kelly Roberts. The spill resulted from leaky packing on the pumping unit. The spilled fluids soaked into the soil, as there was no standing fluid to be recovered.

Describe Area Affected and Cleanup Action Taken.\* The soils that soaked up the produced water will be shoveled and raked. If it is determined further site remediation is necessary, the soil will be excavated and hauled to Envirotech with the excavated area being backfilled with clean fill dirt. Unless further information is discovered upon remediation activities, this will be the final report.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
