Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	0		

If a Watercourse was Impacted, Describe Fully.\*

None

Describe Cause of Problem and Remedial Action Taken.\*

Water haul contractor failed to respond to automated telemetry well notification of high water level. Water was released from the tank through a pipe fitting that was not closed by bull plug at 18 foot. Water within berm was recovered using a water truck.

Describe Area Affected and Cleanup Action Taken.\*

Area within berm. Soil will be raked to promote natural remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
