| Describe Cause of Problem and Remedial Action Taken.* On January 12, 2010, Field Tech reported a gas release on the AL Elliott B 7 well location. Approximately 160MCF of natural gas was released. The suction line from the separator to the compressor froze and split. Repairs were made and well returned to production. | | |
| Describe Area Affected and Cleanup Action Taken.* Soil on location was impacted. The area will be remediated. | | |
| I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations. | | |
