If a Watercourse was Impacted, Describe Fully.* N/A	OIL CONS. DIV. DIST. 3
--	---------------------------

Describe Cause of Problem and Remedial Action Taken.* Dump valve on separator hung open allowing well to flow to oil tank resulting in latch on tank opening and blowing out the top of tank into dike area - approx 26 bbls contained in dike. Action taken: Immediate notification. Replaced latch and put in new seals.
---

Describe Area Affected and Cleanup Action Taken.* Dike: approximately 8' x 20'. Ron Lackey, company representative, contacted IEI. Approximately 7 yds of dirt removed from site. Dike rebuilt. Location cleaned up on May 25, 2010.
---

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
