12. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompilation.

On 06/09/2003, BP America Production Company submitted an application for permit to drill and complete the subject well into the Basin Dakota, set a bridge plug, complete into the MV, establish a production rate, drill out the bridge plug and commingle production downhole. APD was approved on 08/04/2003. BP now seeks NMOCD approval to Downhole commingle production in the subject well as per procedure on reverse side of this Form.

The Basin Dakota (71599) & the Blanco Mesaverde (72319) Pools are Pre-Approved for Downhole Commingling per NMOCD Order R - 11363. The working interest is 100% BP however royalty interest owners are not the same between MV & DK, therefore all interest owners were notified by a copy of this application on February 26, 2004 via certified mail return receipt requested.

Production is proposed to be allocated based on a fixed percentage. We will perform a deliverability test on the MV. There will also be a deliverability test on the combined zones and MV rate will be subtracted from the total well stream to establish the DK rate.

Commingling Production Downhole in the subject well from the proposed pools with not reduce the value of the total remaining production.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
