Dear Sir:

The above well was drilled as an injection well in your Red Mountain Mesaverde water flood project in 1962.

The well has never appeared on your water flood report as an injection well. Will you please indicate if you still plan to utilize this well as an injection well, and if not, when you plan to plug and abandon it?

Yours very truly,

Emery C. Arnold

We have not been able to make this injection well take water. Another attempt will be made soon, and, if unsuccessful, the well will be plugged.
