RE: Mechanical Integrity Test (MIT's)  
Whigham #2, P-11-17N-09W

Dear Mr. Kane:

The New Mexico Oil Conservation Division, as part of its Underground Injection Control authority, requires Citation Oil and Gas Corporation to perform an MIT on the above injection well once every five years. An MIT was due on this well August 7, 1990. Citation was required to complete the MIT by September 1, 1992 and failed to do so.

Our records also indicate that this well has had a continuous six-month period of non-injection, therefore, pursuant to Rule 705-B-1, your authorization to inject has been terminated. According to Rule 201, Citation is required to properly plug and abandon or temporarily abandon this well within 90 days.

If you have any questions please feel free to contact this office.

Sincerely,

*Dianna K. Fairhurst*

Dianna K. Fairhurst  
Deputy Oil & Gas Inspector
