HOBBS PRODUCTION AREA

October 19, 1971

C. D. Borland
AREA PRODUCTION MANAGER

P. O. Box 670
Hobbs, New Mexico 88240

Mr. A. R. Kendrick
Engineer, District 111
New Mexico Oil Conservation Commission
1000 Rio Brazos Road
Aztec, New Mexico 87410

Dear Sir:

Re your correspondence of October 13, 1971, relating to the filing of New Mexico Oil Conservation Commission Forms on stratigraphic test, it is our understanding that on Federal leases such as our Richardson "I" Federal No. 1 well, we should file the applicable Federal Form with U. S. G. S and they would furnish copies of such reports to the New Mexico Oil Conservation Commission.

Attached are copies of Federal Form 9-331-C which were filed with the Durango Office of the United States Geological Survey on the above mentioned well.

If this meets with your approval, subsequent copies of Federal Forms corresponding to Form C-103 and C-105 will be furnished you, as required by paragraph 4 (c), Memo No. 1 - 68, dated March 29, 1968.

If additional information is required, please advise, however we would appreciate this information be kept confidential.

Yours truly,

C. D. BORLAND
