17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1 f03.

After completing drilling this well, and while trying to run logs, the hole caved in. We were not able to get back in the hole with the drill pipe. There were no shows of oil or gas. In view of this, the hole was plugged with a 200 sack cement plug in the surface.

Mr. E. C. Arnold, Supervisor of the New Mexico Oil Conservation Commission in Aztec, gave telephonic approval to plug this well in the foregoing manner.

A dry hole marker will be erected, the pits filled and the location restored.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
