Re: SFPRR Co. #20 6-20-16N-6W

Dear Mr. Davidson:

After reviewing your request for an extension of the order to put the referenced well on production or plug and abandon it within 60 days, Frank Chavez and I have concluded that as no effort has been made to produce the well for the past nine years, your request is denied. The well must be put back on production, or P&A activity initiated on or before August 10, 1985. If you decide to plug the well, notify this office at least 24 hours prior to beginning operations as we will have a witness present.

If you have any further questions, please contact us.

Yours truly,
