Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Operator of the above captioned well presents this sundry notice to request extension of Temporary Abandonment.

Production was suspended October 10, 1986 when the gas purchaser (Gas Company of New Mexico) reduced the purchase price to levels insufficient to meet monthly operating expenses. Given the current condition of the domestic natural gas market, operator expects prices to rise in the near future restoring economic operation to this well.

Operator requests a one year extension of temporary abandonment status.

Well is currently shut in at wellhead connections.
