13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Merrion Oil & Gas requests your approval to construct an overhead power line to provide electrical power for the subject well.

Merrion has received approval to drill a horizontal well in the Federal H 21-4 and plans to commence operations in late May, 1996. If we are successful, Merrion will need to construct a electric power line from the main battery to the well site. We estimate the distance is about 2000'±. Electricity will be used to power a submersible pump. Attached is a topo map showing the project area.

If further is needed, please advise.
