Re: Mammoth Federal No. 1
SE/4SE/4 Sec. 27, T19N, R5W,
McKinley County, New Mexico

Dear Ms. Jacquez,

As we discussed on Friday, February 28th, High Plains is keeping all information confidential, or "tight", on the above-referenced well. As a result, the BLM has sent us the OCD's copy of the APD and Sundry Notices, because the BLM will hold such information confidential much longer than the State of New Mexico and they didn't want any proprietary information released prematurely. However, if the APD is needed for the OCD to assign the API Number requested by the BLM, we will furnish you with the enclosed copy of the APD with the expressed understanding that all the information in the APD, and any subsequent information furnished to the OCD on this well, be held confidential for as long as possible.

Sincerely,

John Somers
