Aztec, N. M.

In re: Request for re-classification of  
Dunn No. 1 well as a gas well;  
Unit M, Section 10, Township 23  
North, Range 7 West, Rio Arriba  
County, New Mexico.

Dear Mr. Arnold:

Since there are no formal regulations pertaining to the re-classification of an oil well as a gas well in the undersignated Gallup pool, and upon the recommendation of Mr. Oliver Payne, attorney, for the New Mexico Oil Conservation Commission, and based upon telephone conversations with your office, we hereby submit on behalf of our client, Dr. Sam G. Dunn, a formal request that the Dunn No. 1 well, located on Unit M, Section 10, Township 23 North, Range 7 West, Rio Arriba County, New Mexico, be re-classified as a gas well.

In support of this request the following information is respectfully submitted, to wit:

1. The Dunn No. 1 well is located on Unit M, Section 10, Township 23 North, Range 7 West, Rio Arriba County, New Mexico, and was completed in the undersignated Gallup pool.
2. The well had a tested gas-oil ratio of approximately 50,000 cu. ft. per barrel, and was initially classified as an oil well.
3. It would be necessary to compress the gas for commercial production and when compressed, would produce approximately 250,000 cu. ft. of gas per day, together with a total of 5 or 6 barrels of oil per day.
4. The nearest offset operator is Southern Union Gas Company at a distance of approximately one mile, and negotiations are in progress finalizing a contract whereby Southern Union Gas Company will take the gas if it is compressed.

Mr. J. L. Verity  
Superintendent and Oil and Gas Division  
1000 Rio Grande Road  
Albuquerque, N.M.

In re: Request for re-classification of  
well No. 1 well in the un-  
classified section 10, Township 13  
North, Range 7 West, Rio Arriba  
County, New Mexico.

Dear Mr. Verity:

Since there are no formal regulations pertaining to the re-classification of an oil well as a gas well in the unclassified oil pool, and upon the recommendation of Mr. Livermore, Attorney for the New Mexico Oil Conservation Commission, and based upon telephone conversation with your office, we hereby submit on behalf of our client, Mr. J. L. Verity, a formal request that the well No. 1 well, located on Unit 1, Section 10, Township 13 North, Range 7 West, Rio Arriba County, New Mexico, be re-classified as a gas well.

In support of this request the following information is respectfully submitted, to wit:

1. The well No. 1 well is located on Unit 1, Section 10, Township 13 North, Range 7 West, Rio Arriba County, New Mexico, and was completed in the unclassified oil pool.

2. The well has a tested gas-oil ratio of approximately 50,000 cu. ft. per barrel, and was initially classed as an oil well.

3. It would be necessary to convert the well for commercial production and when completed would produce approximately 50,000 cu. ft. of gas per barrel, resulting in a total of 50,000 barrels of oil per day.

4. The nearest oilfield operator in northern New Mexico and the only one in the area of approximately one mile, and negotiations are in progress including a contract whereby the operator will take the gas if it is compressed.

Mr. Emery Arnold  
Page #2  
November 7, 1960

5. The gas-oil ratio limitation set forth in Rule 506 of the rules and regulations of the New Mexico Oil Conservation Commission do not allow for economic operation of the well under the 2,000-1 ratio of the Rule.

6. Enclosed is an original and four copies of New Mexico Oil Conservation Commission form C-110.

7. Enclosed is an original and one copy of New Mexico Oil Conservation form C-128.

Based upon the above information and the fact that the Dunn No. 1 well would have to be prematurely abandoned in the event it is not re-classified as a gas well and allowed to produce as such, on behalf of Dr. Sam G. Dunn, operator of the Dunn No. 1 well, it is respectfully requested that said well be re-classified as a gas well.

Very truly yours,

Geo. L. Verity  
Attorney and agent for  
Dr. Sam G. Dunn

OLL:mts  
Encls.
