Lynbrook Gallup

Attention: Mr. Emery C. Arnold

Gentlemen:

We have your letter of February 14, 1968 stating that the subject well is filed for 80 acres whereas it actually is on 76.94 acres.

Our records indicate that our lease is the SW/4 of Section 10, and that this well is located on W/2 of the SW/4. We owned the original lease from the U.S. G. S. on which this well was drilled. When the operator that drilled this well went bankrupt, we came into the possession of this well. We do not have any survey or plat in our files that would indicate that this acreage is less than 80 acres, and we would appreciate knowing from what agency the 76.94 acres was obtained as being the correct acreage dedicated to this well. We would like to obtain their survey plat in order that we may make this correction. When we obtained this well, we did not receive any of the files concerning it.

We would be pleased to dedicate any 80 acres in this SW/4 to this well if we knew how to do it correctly.

Thank you.

Sincerely,

Ray J. Diekemper, Jr.

RJD/s
