Re: Deliverability Test, Dunn #2

Dear Mr. Bigbee,

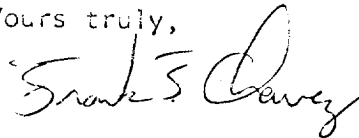

The enclosed corrections were made to the above test.

The square labeled "TOP TUBING PERF- FEET" should contain the depth of the uppermost intake opening in the tubing string.

The remarks section should include the number of the commingling order and the allocation of the gas.

If there are questions, please call this office.

Yours truly,

Frank T. Chavez
Deputy Inspector, District #3
