EWELL N. WALSH, P.E.

President

July 28, 1977

Mr. J. D. Ramey, Secretary-Director New Mexico Oil Conservation Commission P.O. Box 2088 Santa Fe, New Mexico 87501

Ref: Odessa Natural Corporation, Operator

Jicarillo Joint Venture "KD", No. 5

2100' FSL, 2010' FEL

Unit J-Section 10-T23N-R3W Rio Arriba, New Mexico

Dear Mr. Ramey:

This is a request on behalf of the above referred-to operator for approval for unorthodox location. (Standard location - not closer than 790 feet to any quarter section line nor closer than 330' to any quarter quartersection line or subdivision line.) It is proposed to drill the unorthodox location due to the following:

- 1. Topography An orthodox location would be 1850' FSL, 1850' FEL and would put the location on a ridge. This would cause the location to be more expensive to prepare.
- 2. Trees Drilling of the proposed unorthodox location would prevent the necessity of destroying additional trees. The Bureau of Indian Affairs did request that as few trees be destroyed as possible.
- 3. The location was staked and all inspections performed, archaeological, Bureau of Indian Affairs and Geological Survey, with approval of the location.

The location was staked and the above approved inspections performed prior to the Order No. 53353-B which concerns the Chacon Dakota Associated Pool Area. Prior to the issuance of the order, the location was an orthodox location.

Attached you will find a copy of the following:

- 1. Plat indicating the ownership of leases offsetting the proration unit, SE/4 Sec. 10-T23N-R3W.
- 2. Well location and acreage dedication plat.
- 3. Topography map indicating the proposed position of the well and the ridge to the southeast of the proposed well.

Odessa Natural Corporation has the lease covering all of Section 10-T23N-R3W.

A copy of this application is being sent to Amerada Hess Corporation, as required by Rule No. 101.

Your consideration and cooperation in this matter is greatly appreciated.

Very truly yours,

Ewell N. Walsh, P. E.

well Well al

President

Unit J-Section 10-T23N-R3W Rio Arriba County, New Mexico

Dear Mr. Stricklin:

Enclosed you will find a copy of the application to the New Mexico Oil Conservation Commission for approval of the unorthodox location of the above referred-to well.

It is required by the Rules and Regulations of the Commission that all operation affecting the proration or spacing unit of the unorthodox well, SE/4 Sec. 10-T23N-R3W, be notified by certified or registered mail.

The Commission will wait 20 days, after receipt of the application if during that period of time, no objection to the application is received.

Your notification to the Commission that Amerada Hess Corporation has no objection to the location as soon as possible, would be appreciated.
