17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of start of proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and pertinent to this work.)

Operator has perforated, fracked and tested at 6350, 6356, and 6366 on this well. Details of same will be furnished at a later date. The perfs are presently making water with 8 PPM salt and slight gas.

Obtained verbal approval at 10:45 A.M. on June 15, 1982 from Earl Becher with the Minerals Management Service in Farmington to set a cement retainer above 6350 and to squeeze perfs off with at least 50 sacks Class B cement. Said job to be performed between 9:00 A.M. and 6:00 P.M. on June 16, 1982.
