17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

By letter "Decision - Lease terminated" dated 7-14-68 The Bureau Of Land Management, Division of Lands and Minerals, Program Management and Land Office, Santa Fe, New Mexico, terminated the above reference lease.

By agreement of the Farmington office I made a deal with Mr. Johnny Myers for the plugging of the wells on + in lease and cleaning up of same for the equipment. Mr. Myers has been contacted and he states that the Guthrie # 3 well was plugged September 4, 1968 as follows.

Well was plugged from total depth to 920' with mud between plugs. Plug 600 - 700 and 150 - 250. Set surface plug and marker.

This lease was purchased from Mr. J I Harvey and I presume that he filed any logs he ran at the time he drilled this well.
