Gentlemen:

In answer to your letter of September 19, 1959, requesting that we send copies of information to the United States Geological Survey in Farmington:

We have in our file only the Notice of Intention to Drill and Plat and the Well Log form, 9-330, and all of these were forwarded to us from the U.S.G.S. Office; therefore I am sure they have copies of these forms. There is no information on the Well Log form regarding the plugging operations and they are doubtless requesting that you supply them with this information. The well is on Federal Land and all information should be filed on Federal Forms with the U.S.G.S. Office.

Yours very truly

Mr. William L. Murray
Box 100
Albuquerque, New Mexico

Dear Mr. Murray: This letter is in response to your letter of February 14, 1952, regarding the proposed drilling of an oil well on the public lands in the State of New Mexico.

Enclosed

is a copy of the report of the State Engineer, dated February 14, 1952, regarding the proposed drilling of an oil well on the public lands in the State of New Mexico. This report contains a detailed description of the proposed well and the estimated cost of drilling and operating the well.

We have reviewed the report and the proposed well and find that the proposed well is in compliance with the provisions of the New Mexico Oil Conservation Act. We have also reviewed the proposed drilling operations and find that they are in compliance with the provisions of the New Mexico Oil Conservation Act. We have also reviewed the proposed drilling operations and find that they are in compliance with the provisions of the New Mexico Oil Conservation Act. We have also reviewed the proposed drilling operations and find that they are in compliance with the provisions of the New Mexico Oil Conservation Act.

Very truly yours,

William L. Murray

Gentlemen:

The U. S. Department of Interior, Geological Survey in
Farmington has requested that they be given copies of:

1. Casing report with spud date of the well and
information on surface pipe run into the well.
2. Notice of intention to abandon well, giving
reasons for abandoning and proposed plugging
program.
3. Subsequent report of abandonment showing plugs
actually placed in the well.

All of this information was requested for Well #1, F. H.
Gose, NE $\frac{1}{4}$ Section 35, 19N-3W, Sandoval County, New Mexico.
Mr. Harvey requests that you send photostated copies of
these reports to the Geological Survey and bill Mr.
Harvey for any cost which you incur.

Thanking you in advance,

Yours very truly,

Herbert M. Cole
