Gentlemen:

On April 2, 1969, engineers from this office visited the location of your No. 1 Federal "C" well located in the SW $\frac{1}{4}$ sec. 13, T. 17 N., R. 3 W., Sandoval County, New Mexico, on Federal oil and gas lease New Mexico 0558480. The well was found to be unplugged with pits unfilled and junk on the location. It was also noted that no surface casing had been set or cemented as was set forth in your Notice of Intention to Drill. No well sign was in evidence.

On March 10, 1969, you were requested to submit various delinquent reports. These reports have been received but include incorrect information regarding surface casing on the well. Your Notice of Intention to Abandon is being returned herewith and is approved subject to the program which we have outlined thereon.

Under no circumstances should you depart from any approved program without first obtaining approval from this office. You are requested to notify us when you intend to proceed with plugging operations on the well so that a representative from this office may be present to witness the work.

Sincerely yours,

(Orig. Sgd.) J. W. LONG
