Mr. Benjamin Elenbogen  
4100 Mt. View Blvd.  
Denver, Colorado 80207

Re: Gas Well Deliverability Tests

Dear Mr. Elenbogen:

A search of our records indicates that your Jicarilla A-55 #3.  
L-36-23N-3W, connected to a pipeline January 31, 1969; and your  
Jicarilla A-55 #7, O-26-23N-3W, connected April 21, 1969, have  
not had deliverability tests reported.

These wells have been within one mile of the Ballard-Pictured Cliffs  
Pool boundary and therefore must be operated according to the pool  
rules.

Allowables for these wells cannot be assigned retroactively for  
more than 60 days.

Any production in excess of the allowable for the immediate past  
60 days is overproduction and must be accountable when allowables  
are assigned.

If there are questions, please contact us.

Yours very truly,

A. R. Kendrick  
Engineer, District #3
