17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Benson Mineral Group, Inc. has determined that further drilling on this location is uneconomical at this time, based on other drilling in the area.

We intend to plug and abandon the Federal 33-22-7 Well #1 by erecting a P&A marker and cleaning up and reseeding the location. We feel that it is unnecessary to spot any cement plugs in that only 115' of hole was drilled. 8-5/8" casing was cemented to surface as described in Sundry Notice dated August 1, 1978.

18. I hereby certify that the foregoing is true and correct
