17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Gary-Williams Oil Producer, Inc. respectfully requests approval to temporarily shut in the San Isidro 6, #13 well for an indefinite time period. Current depressed oil prices make this marginal well uneconomical to stimulate and produce.

Due to the fact that there are remaining reserves from the Gallup formation and significant hydrocarbon potential in shallower gas formations, a temporary shut in period is requested. Approval for temporary shut-in status for this well would prevent premature abandonment of recoverable hydrocarbon reserves.
