1680' FNL & 2108' FEL  
Sandoval County, NM

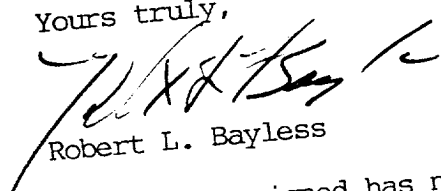

Gentlemen:

We request administrative approval of an unorthodox location for a Chacra formation gas well.

You will note from the enclosed topographic map the position of the location. Due to geologic data and the topography of the area it would be difficult to comply with the regulation requiring locations to be no closer than 790 feet from the nearest lease line. We have also enclosed a copy of a map showing adjoining leases and leaseholders, as you will note, we are the successors to Northwest Exploration for the acreage that is leased. We have a request for farmout submitted to owners of the W $\frac{1}{2}$  of Section 2 and by copy of this letter are requesting their approval.

If additional information is required please advise.

Yours truly,

  
Robert L. Bayless

The undersigned has no objection to the above location.
