Re: San Isidro 11 #14 N-11-20N-3W
San Isidro 12 #10 J-12-20N 3W

Dear Mr. Jacobsen:

C-101 shows completion date on the 11 #14 as 1-3-91. Per Rule 1105, well is out of confidential 90 days after completion. Now I need all the reports on this well. Spud, casing, well completion report, etc.

I am returning the C-104. I need all information on this form & (correct information), with the data test.

I also need the original deviation report (notorized). I show a copy received on 12-26-90. Since this is a directional drill well, I also need DD order with a bottom hole location. Bottom hole location should show on the plat (C-102).

On the San Isidro 12 #10, C-104 shows this well was completed 12-24-90. I need an original deviation report. I only received a copy which is not acceptable. Any logs run? Also, need a well completion report for this well. C-104 has been approved on #10, and allowable will be cancelled if the reports are not in at a certain time.

Thanks,

Dorothy
