If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In response to your letter dated Nov. 24, 1987 concerning the subject well, the Anderson 'A' #3 has been producing monthly since March, 1987. The gas purchaser (EPNG) has allowed Texaco one days production per month (approx. 90 MCFGPM). The Anderson 'A' #3 is on production and does not require an extended shut in status. Texaco will produce the subject well as market demand allows.

18. I hereby certify that the foregoing is true and correct.
