17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Because of non-production it is planned to plug and abandon this well as follows:

Kill well, ascertain that tubing is ~~in~~ free and spot 50 sack plug through the tubing in open hole.

Pull tubing and determine free point of 5 1/2" casing by stretch method.

If there is sufficient free casing to warrant recovery, shoot off casing above ~~in~~ free point. Spot a 30 sack plug on casing stub by displacing cement down the casing.

If casing is not pulled, perforate at base of Ojo Alamo (2098') and spot a 30 sack plug inside casing, then squeeze by displacing approximately 15 sacks.

Pull casing and spot a 30 sack plug at base of surface casing.

Place a 15 sack plug at the surface and erect a dry hole marker.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
