

AMERADA PETROLEUM CORPORATION

P. O. BOX 2040

TULSA 2, OKLA.

April 11, 1962

New Mexico Oil Conservation Commission  
Box 871  
Santa Fe, New Mexico

ATTENTION: Mr. A. L. Porter, Jr., Secretary-Director

Gentlemen:

Amerada Petroleum Corporation is presently drilling its  
J. Apache "B" No. 9 well located 990' FNL and 990' FEL of  
Section 20-24N-5W, Rio Arriba County, New Mexico.

We propose to run 3-1/2" OD (2.992 ID) casing to total depth,  
approximately 6820, and perforate for Basin Dakota gas pro-  
duction. All known producing horizons will be protected by  
cement. A staging tool (DV collar) will be run just below  
the Pictured Cliffs formation to insure its protection.  
The Gallup formation was tested and found unproductive.

We do not intend to run a string of tubing, therefore,  
respectfully request an exception to statewide rule  
107 (d)-(2) be granted.

Yours very truly,

*R. S. Christie*
