DENVER 2, COLORADO

December 14, 1959

Oil Conservation Commission  
State of New Mexico  
1000 Rio Brazos Road  
Aztec, New Mexico

Gentlemen:

Enclosed you will find the original and five copies of Form C-101, Notice of Intention to Drill, along with three copies of Form C-128, Well Location and Acreage Dedication Plat, concerning our #1 well in Section 16, SW $\frac{1}{4}$ SW $\frac{1}{4}$ , Township 24 North, Range 7 West, Rio Arriba County, New Mexico.

Our blanket plugging bond, Phoenix Assurance Company of New York No. 97330, was filed in connection with wells drilled in Lea County, New Mexico, and is still in effect. The notation on Form C-101 concerning designation of operator was made in error by the stenographer in preparing the notice. We assume that a designation of operator will not be required, inasmuch as the well is to be drilled on a State of New Mexico lease.

Yours very truly,

COMPASS EXPLORATION, INC.
