Gentlemen:

I have examined the application dated 5-2-65
for the Continental Oil Co. Operator Lease and Well No. 46 D-1584-5
S-T-R

and my recommendations are as follows:

Approve

Yours very truly,

Emory C. Cline

CONTINENTAL OIL COMPANY

P. O. Box 3312
Durango, Colorado
May 2, 1963

Mr. A. L. Porter
Secretary and Director
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Subject: Northeast Haynes No. 6
Dual Completion

Dear Mr. Porter,

In accordance with New Mexico Oil Conservation Commission rules and regulations in regard to dual completions, we are submitting the required applications, sketches, plats, and logs.

Letters and copies of the application for Northeast Haynes No. 6 has been sent to all offset operators. A copy of this letter is attached for your approval.

The well in question is presently producing Dakota "J" sand gas into El Paso's high pressure system. It is proposed to cross the Dakota gas over into the annulus (see sketch), 60 feet above the Gallup with a retrievable crossover snap-set packer. Gallup gas and oil will then be produced with a plunger lift system.

We respectfully solicit your approval of this application for the dual completion of Northeast Haynes Well No. 6. Please notify this office if any question arises concerning the subject application.

Very truly yours,

R. E. Jensen
Assistant District Superintendent
Durango District
Production Department

Gentlemen:

The New Mexico Oil Conservation Commission Rules and Regulations require that all offset operators be furnished copies of multiple completion applications. In accordance with these rules, we are furnishing you with copies of our applications to dually complete the following Continental Oil Company wells located on our Northeast Haynes lease, Rio Arriba County, New Mexico:

Well No. 2 - Section 16 - T24N, R5W
Well No. 3 - Section 16 - T24N, R5W
Well No. 4 - Section 21 - T24N, R5W
Well No. 5 - Section 22 - T24N, R5W
Well No. 6 - Section 15 - T24N, R5W

The subject wells are to be dually completed in Gallup and Dakota formations.

Very truly yours,

H. D. Haley
District Superintendent
Durango District
Production Department

* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
