Section 9-24N-5W

Mr. Henry C. Arnold  
Supervisor, District #3  
Oil Conservation Commission  
1000 Rio Brazos Road  
Aztec, New Mexico

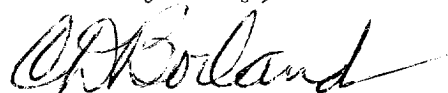

Dear Sir:

In reply to your letter of August 7, 1964 relative to above subject, the communication was corrected on June 25, 1964 and the C-103 covering the work was approved by your office on July 8, 1964. The second packer leakage test was concluded August 6, 1964 and should be in your office by this time.

As you probably know, this lease is operated by contract personnel through Mr. J. C. Harris of Farmington. This, of course, does not alleviate our responsibility but we have requested Mr. Harris that prompt action be taken to see that all forms on Gulf wells are submitted within the required time. I am sorry that the delay in filing this report occurred but feel that corrective action has been taken.

If I can be of service to you in the future, please advise.

Yours very truly,

C. D. BORLAND  
Area Production Manager
