OIL CON. DIV
DIST. 3

Administrative Order NSL-2911

Dear Mr. Kleier:

Reference is made to your application dated July 30, 1990 for a non-standard South Blanco Pictured Cliffs gas well location for your existing Jicarilla "B" Well No. 12 which was drilled in 1958 and completed in the Otero Gallup Oil Pool at a standard oil well location 1980 feet from the North line and 660 feet from the East line (Unit H) of Section 32, Township 25 North, Range 5 West, NMPM, Rio Arriba County, New Mexico.

It is my understanding that the Gallup zone will be properly plugged back and said well will be recompleted to the South Blanco Pictured Cliffs Pool, which pursuant to the Special Rules and Regulations for the South Blanco Pictured Cliffs Pool as promulgated by Division Order No. R-8170, as amended, is unorthodox. Further, the NE/4 of said Section 32 shall be dedicated to the well forming a standard 160-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 2(c) of said Division Order No. R-8170, as amended, the above-described unorthodox gas well location is hereby approved.

Sincerely,

William J. LeMay
Director

OIL CON. DIV.
DIST. 3

Gentlemen:

Texaco Inc. respectfully requests permission to complete the above referenced well at an unorthodox location in the South Blanco (Picture Cliffs) Pool. The Jicarilla "B" Well No. 12 was drilled to a TD of 6220' in August of 1958 with 5-1/2" casing set at 6210' and was completed in the Gallup formation. Texaco now proposes to plug the Gallup perforations and recomplete the well in the Picture Cliffs formation.

At the present time, Jicarilla "B" Well No. 13 which is located in the same quarter section as the referenced well, is currently completed in the Picture Cliffs. Prior to commencing any operations to recomplete Well No. 12, Texaco will plug and abandon the Picture Cliffs formation in Well No. 13.

Attached for your information is a copy of the C-102, a plat of the offset operators, and copies of Texaco's notification to the offset operators. If you have any questions or need additional information concerning this matter, please contact Mark Wakefield at (505) 325-4397.

Yours very truly,

Alan A. Kleier

WELL LOCATION AND ACREAGE DEDICATION PLAT

All Distances must be from the outer boundaries of the section

Operator Texaco Inc.			Lease Jicarilla "B"		Well No. 12
Unit Letter H	Section 32	Township 25N	Range 5W	County NMPM	Rio Arriba
Actual Footage Location of Well: 1980 feet from the North line and 660 feet from the East line					
Ground level Elev. 6692'	Producing Formation Picture Cliffs		Pool South Blanco		Dedicated Acreage: 160 Acres

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.

2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).

3. If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communitization, unitization, force-pooling, etc.?

☐ Yes

☐ No

If answer is "yes" type of consolidation

If answer is "no" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interest, has been approved by the Division.
