Attention: Alan A. Kleier

*Administrative Order NSL-2985*

Dear Mr. Kleier:

Reference is made to your application dated October 18, 1990 for a non-standard South Blanco Pictured Cliffs gas well location for your existing Jicarilla "B" Well No. 8 which was drilled in 1958 and completed in the Otero Gallup Oil Pool at a standard oil well location 1980 feet from the North and 660 feet from the East line (Unit H) of Section 31, Township **25 North, Range 5 West**, NMPM, Rio Arriba County, New Mexico.

It is my understanding that the Gallup zone will be properly plugged back and said well will be recompleted to the South Blanco Pictured Cliffs Pool, which pursuant to the Special Rules and Regulations for the South Blanco Pictured Cliffs Pool as promulgated by Division Order No. R-8170, as amended, is unorthodox. Further, the NE/4 of said Section 31 shall be dedicated to the well forming a standard 160-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 2(c) of said Division Order No. R-8170, as amended, the above-described unorthodox gas well location is hereby approved.

Sincerely,

  
William J. LeMay  
Director

Gentlemen:

Texaco Inc. respectfully request administrative approval to produce the referenced well from the Pictured Cliffs formation at an unorthodox location. Approval to this application would require an exception to NMOCD Rule 104.C.I.. Texaco Inc. has notified all offset operators to the referenced spacing unit.

Attached, for your information, is a map showing the offset spacing units to the subject spacing unit and a well location and acreage dedication plat (form C102).

If you have any questions concerning this matter please contact Darren Segrest at (505) 325-4397. Your attention to this matter is greatly appreciated.

Sincerely,

*Alan A. Kleier*
