Mr. A. R. Kendrick  
New Mexico Oil Conservation Commission  
1000 Rio Brazos Road  
Aztec, New Mexico

Dear Sir:

In reply to your letter of March 17, we originally intended to drill our 30-H well 1450 feet from the South line and 1150 feet from the East line of Section 30, Township 25 North, Range 1 West, Rio Arriba County. However, due to difficulties encountered in building a road into this location, the well site was moved to a location 1962 feet from the South line and 1916 feet from the East line of the same section.

I have filed Form 9331A with the United States Geological Survey notifying them of this change in plan and abandonment of the first location. I am enclosing a copy of this report and am sure that you will receive your copies from the United States Geological Survey.

Sincerely,

SAN JUAN GAS CORPORATION
