Re: Delta No. 2 (Pictured Cliffs)
W/2, ^N21-25-~~ES~~, 6
Rio Arriba County, New Mexico

Dear Mr. Abraham:

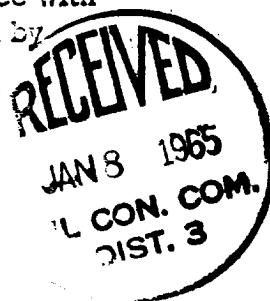

This is to acknowledge receipt of your letter dated December 17, 1964 which advised us of the completion and availability for connection of the captioned well.

You asked that we aid in obtaining a retroactive assignment of allowable. We regret that this is not permitted by the New Mexico Oil Conservation Commission rules. Your allowable will be assigned in accordance with the following provisions of Rule 3(C) Order No. R-1670:

Allowables to newly completed gas wells shall commence:

1. On the date of connection to a gas transportation facility, such date to be determined from an affidavit furnished to the Commission (1000 Rio Brazos Road, Antec, New Mexico) by the purchaser, or
2. The latest filing date of Form C-104, C-110, and C-120, or
3. A date 45 days prior to the date upon which the well's initial deliverability and shut-in pressure test is reported to the Commission on Form C-122-A in conformance with the provisions of Order R-333-C and D as amended by Order R-335-E,

whichever date is the later.

Mr. Oscar Abraham

Page two

We have obtained the right-of-way required and as soon as we can put a crew in the area and weather permits, your well will be connected.

Your letter indicates that you advised our Farmington Office of the completion of your well prior to your December 17, 1964 letter directed to me. Please advise me and the Field Office in writing immediately upon completion of any future well as the contract provides. This permits the most expeditious handling of the matters prerequisite to well connection.

Yours very truly,

Original Signed:
F. NORMAN WOODRUFF
